

HDOH Has Two Different Versions of Their 1960-64 Birth Index

1960-64 Birth Index page the HDOH sent me electronically on March 22, 2010 (full image and documentation below):

CHILD	BIRTH INDEX OFFICE OF HEALTH STATUS MONITORING	GENDER
ASHFORD, GEORGIANNE		F
ASHFORD, JAMES H		M
ASHFORD, LISA ANN		F
ASHIDA, ALTON LANCE		M
ASHIDA, LINCOLN SCOTT TAKESHI		M
ASHIMINE, DUANE AKIO		M
ASHIMINE, GAYLE REIKO		F
ASHIMINE, KIMBERLY HULALI		F
ASHIMINE, ROBIN DALE KEAHT		F

Supposedly the exact same page sent to me on July 6, 2010 via snail mail:

BIRTH INDEX 1960-1964
OFFICE OF HEALTH STATUS MONITORING

CHILD	GENDER
ASHFORD, GEORGIANNE	F
ASHFORD, JAMES H	M
ASHFORD, LISA ANN	F
ASHIDA, ALTON LANCE	M
ASHIDA, LINCOLN SCOTT TAKESHI	M
ASHIMINE, DUANE AKIO	M
ASHIMINE, GAYLE REIKO	F
ASHIMINE, KIMBERLY HULALI	F
ASHIMINE, ROBIN DALE KEAHT	F

Notice that one version has the date range in the heading (1960-1964) and the other doesn't. These were supposed to be copies from the 1960-64 Birth Index Book at their office. If so, then they have 2 different books they're using for the 1960-64 Birth Index.

Full Story:

Now that it is abundantly clear that the long-form birth certificate Obama presented is a forgery just like the COLB he presented, we can resume the investigation of what the HDOH ACTUALLY has in their records for Barack Hussein Obama II, which they say they sent Obama certified copies of.

Before the release of the latest forgery Mark Niesse wrote an [article](#) saying that the only record the HDOH can allow the public to see is the 1960-64 birth index in the HDOH office, which has Obama's name listed. But – as with all things related to Obama's records – there are some documented problems with that birth index book: either the HDOH has two different books, or their "book" that records the events from 50 years ago is constantly changing even now.

On March 8, 2010 I sent the following request:

From: Nellie
Sent: Monday, March 08, 2010 2:44 PM
To: hdohinfo
Subject: UIPA Request: 1960-64 birth index page

03-08-10

Aloha!

Pursuant to UIPA I request an electronic copy of the page or pages from the 1960-64 birth index book showing all records having the last name of Asing. OIP Opinion Letter 90-20 and 99-05 affirm that the right to inspect includes the right to copies. Since the book is available for public inspection it is also available for copies.

*Thank you.
Nellie*

On March 22, 2010 I received this response from the HDOH:

Two months later I sent this request:

From: Nellie
Sent: Monday, May 17, 2010 9:17 AM
To: hdohinfo
Subject: UIPA Request - Birth Index Pages

5-17-10

Aloha!

Pursuant to UIPA I request an electronic copy of all pages in the current birth, death, marriage, and divorce index books with entries having both the first name Norman and the last name Asing. These pages are public records so UIPA requires them to be disclosed upon request.

Thank you.
Nellie

After MUCH trouble (which I will spare you), I received this response:

----- Original Message -----

From: hdohinfo
To: Nellie
Sent: Tuesday, July 06, 2010 9:24 PM
Subject: RE: UIPA Request - Birth Index Pages

Aloha Ms. (redacted):

We are mailing in your SASE the requested information as much as it is available, and in the form available, which is not electronic.

There are no death records for Norman Asing, and no divorce records between 1991-2002.

And sure enough, on a letter post-marked July 6, 2010, I received three pages including this (which I have photographed):

Notice that though this is supposed to be the exact same page (pages 93-94 from the 1960-64 birth index book), one copy they sent me has the date range (1960-64) and the other doesn't. On March 22 the book didn't have a date range; on July 6 it did, and later in July when a researcher made a [copy](#) at the HDOH office there was no date range.

The April 25, 2011 article by Mark Niesse at <http://www.dailydem.com/articles/2011/04/25/news/news6.txt> said:

So far this month, only The Associated Press and one other person had looked at the binder, according to a sign-in sheet viewed Wednesday in the state Department of Health building. The sheet showed about 25 names of people who have seen the document since March 2010, when the sign-in sheet begins.

If 25 people have looked at this book there was no need to reprint it because of overuse. If the book only contains legally-valid birth records for 1960-64 there should be no revisions to make on the list at this point. Because the pages can be individually removed and replaced, any extremely rare adoptions, legitimations, etc of these 45-50-year-olds who were born in 1960-64 would presumably be done by changing a single page rather than reprinting the whole thing.

Something is not right with the 1960-64 Birth Index Book at the Hawaii Department of Health. Either they have 2 different books or they are editing their "book" at will when they respond to UIPA requests.

This issue becomes especially significant in view of a researcher's [claim](#) that in March of 2010 there was no entry for Barack Hussein Obama II in the 1960-64 birth index book though there is in the index book currently (a book which is also problematic because it alone of the index books lacks a date range heading). At the time, the researcher was not able to get a photo to document the difference in the contents of the 1960-64 birth index. But now it is documented that the HDOH has used 2 different versions of a single page from the "1960-64 Birth Index Book".

Two questions immediately come to mind:

1. Why is the HDOH messing with the 1960-64 birth index book?
2. If they are changing it to add or delete the heading, what else are they adding, deleting, or changing? Stay tuned for something very critical that we know they changed...
